

What is Summer Day Camp?

Summer day camp is a great alternative to daycare where kids are the focus all summer long. Each week will have a different theme and all activities, field trips, games, and crafts will revolve around the theme. This creates a fun and exciting atmosphere for children to learn and have fun. They will be doing something new and different throughout the summer.

Each day is structured to be the perfect balance of fun and learning. Campers will experience everything from gardening, arts and crafts, games, reading time and active play. Most morning activities will be held outdoors, weather permitting. A different activity will be held each afternoon of the week. Campers will go to the park, swim at the Horne-Henry Center, walk to the Marshalltown Library, and go on a field trip.
